Profiles and tracklights

Arca

Extruded aluminum linear system compatible with a wide range of lighting fittings with magnetic fixing and mechanical safety lock. The system is anodized and varnished. It is available in black color and for different kind of installations: ceiling, suspension, or flush in plasterboard ceilings. Modules can be assembled according to the desired arrangement.
The body section for the ceiling and suspension versions is 42 mm wide and 85 mm high, while the body for recessed version is 86 mm wide and 90 mm high. Both models are available in two lengths: 1000 mm and 3000 mm. Possibility of assembly with different source modules: the WIDE diffusing module, the ACCENT module with UGR control lower than 19, the TRACK or PENDANT modules for SPOT illumination with different emission angles.
Integrated LEDs, possibility of color temperature of 3000 K or 4000 K; starting binning ≤3-Step MacAdam; min. 80% of luminous flux remaining after 50,000 h duration; IP20 protection; insulation class III.
The 48V power supply gives great versatility and safety, with reversible settlement that can be modified if necessary. The system is suitable for environments where professional lighting with minimal design is required, such as OFFICES and SHOPS.

Oxy

Extruded aluminum profile compatible with magnetically mounted lighting elements and mechanical safety lock. The system is powder coated and available in black for ceiling installation. The modules can be assembled according to the desired layout. The profile section is 26 mm wide and 27 mm or 52 mm high; available in two lengths, 2000 mm and 3000 mm. Possibility of assembly with different source modules: the WIDE diffusing module; the ACCENT module with control of the UGR lower than 19; the TRACK SINGLE or DOUBLE module for spot illumination with different angles of emission and the PENDANT TUBE decorative module. Integrated LEDs, color temperature of 3000 K; starting Binning ≤2-Step MacAdam; min. 80% of luminous flux remaining after 35,000 h duration; IP20 protection, insulation class III.
The 48V power supply gives great versatility and safety, the compositions are in fact reversible and modifiable if necessary. Suitable for the installation in large environments where great flexibility and color rendering is required, such as MUSEUM, COMMERCIAL, RESIDENTIAL and RETAIL spaces.

Fluo

Linear system of lamps with extruded aluminum body with a 50 mm wide and 80 mm high section, modules available in two lengths: 1200 mm and 1800 mm, which can be assembled according to the desired arrangement, possibility of assembling three different source modules: the WIDE diffusing module, the BI-EMISSION module with light component for indirect lighting and the ACCENT module with UGR control lower than 19, integrated LEDs, color temperature options of 3000K or 4000K, starting binning ≤3 -Step MacAdam, minimum 80% of luminous flux remaining after 30000 h duration, IP20 protection, insulation class I.
The system is available in anodized aluminum, white and black colors and it is possible to install it in different ways: ceiling-mounted or flush-mounted in plasterboard ceilings. Driver included, integrated in the lighting fitting, available in both DALI and 1-10V dimmable versions.
System suitable for locations where professional lighting with minimal design is required, such as OFFICES and SHOPS.

Quick

Extruded aluminum cylindrical tracklight suitable for installation on three-phase track. White or black powder coating, 355 ° turning head and 90 ° adjustable, the power driver is included and located in the cylindrical body of the projector itself; light source with integrated COB LED technology for maximum efficiency, available with a color temperature of 3000K or 4000K; Energy efficient LED with high color rendering, up to CRI ≥ 90; starting binning ≤3-Step MacAdam; min. 80% of luminous flux remaining after 50000 h duration; symmetrical beam optic with three different emission angles and glare control (UGR <19); assembly and disassembly without tools; IP20 protection; insulation class I.
Ideal for installation in big rooms, where great flexibility and color rendering is required, such as MUSEUM, COMMERCIAL and RETAIL spaces.

Link

Extruded aluminum body for three-phase electrified tracks; powder coating in white or black, optimized for SMILE tracklights; available in ceiling-mounted, suspension-mounted or flush-mounted in plasterboard ceilings; suitable for continuous linear system installation, standard modules of 2000 mm or 3000 mm. Modules can be sectioned to size and assembled following the chosen scheme.
Ideal for installation in big rooms, where great flexibility is required, such as MUSEUM, COMMERCIAL and RETAIL spaces.

Slot

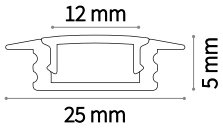

Extruded aluminum body with white powder coated surface and PMMA opal cover. Bars with different optional sections: RECESSED version for plasterboard ceilings and SURFACE version for wall or ceiling installation.
The linear modules are available in different lengths: 1000, 2000 and 3000 mm. They can be assembled according to the desired design and can be sectioned to size.
Led and driver to be combined for a correct installation. Light source available with color temperature of 2700K, 3000K, 4000K; CRI ≥ 80; available with IP20 and IP65 protection.

Lika

Family of recessed rectangular modules in die-cast aluminum, painted black with polycarbonate reflector. Available in TRIM versions with frame or TRIMLESS with recessed edge for flush installation on plasterboard ceilings. Modules available with single lens, double lens, five or ten lenses. Light source with SMD LED technology, available with a color temperature of 3000 K; Energy efficient LED with high color rendering; CRI ≥90; min. 80% of luminous flux remaining after 30000 h duration; protection IP20; insulation class II. Specially designed to avoid glare (UGR <19), best for installation in OFFICES and SHOPS.

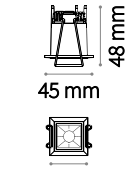

Source	LED SMD
Power	2W / 4W / 10W / 20W
Driver included	On/Off

Dynamic

Modular system of aluminum recessed elements consisting of source, reflector and seal, with lenses and optional screens; white, chrome, black, gold finish; possible recess of round or square shape, symmetrical or asymmetrical reflector; three different emission angles options. Light source with integrated LED COB technology for maximum efficiency, available with a color temperature of 2700 K, 3000 K or 4000 K; Energy efficient LED with high color rendering; CRI ≥90; starting binning ≤3-Step MacAdam; min. 80% of luminous flux remaining after 50000 h duration; protection IP54; insulation class II. Available in both DALI and 1-10V dimmable versions. Thanks to its compact size and great versatility, it is optimal for installation in DOMESTIC, MANAGERIAL and RETAIL indoor locations.

Game

Die-cast aluminum recessed spotlight with round or square seal, suitable for the installation on plasterboard ceilings. Matt chrome finish, matt white RAL 9001, matt black RAL 9011, matt gold RAL6464.
Passively cooled LED; COB-Chip on Board technology for maximum efficiency; available with color temperatures 3000 K; CRI ≥ 80; min. 80% of luminous flux remaining after 30000 h duration. Assembling and disassembling without utensils; protection IP20; insulation class II. It can be dimmed with 1-10V and DALI.

Notes

Ideal Lux s.r.l. reserves the right to make, at any time and without notice, all necessary changes to improve the quality of the items of this catalogue

All our products work with nominal Voltage of 240V and comply with EU legislation.

The Lumen measures referred to the lighting fittings with integrated LED source are nominal, namely referred to the source. We kindly invite you to check photometry files for the actual Lumen of the single lighting fittings. For further information and updates, please get in contact with the Technical Office.
