Nanospot Steel

FLOODLIGHTS

A proof of engineering and design. Every millimeter of the “steel” version of NANOSPOT - the miniature projector - brings to the stage the perfect fusion of lighting power and strength of stainless steel, protector and keeper of the light source.
Tiny sizes, big performance.

Coiny

FLOODLIGHTS | BOLLARD

The harmony takes shape. In COINY geometry and design converge in an outdoor lighting product introducing a curvilinear silhouette into the range of projectors. It stands out for its ability to be used as a bollard as well: in both versions, the lighting power is supported by the circular shape.

Face UP

IN GROUND

From the ground to the stars. The pyramidal shape of FACE-UP projects light and gaze upwards, transforming outdoor spaces and emphasizing architectural details. The raised silhouette makes it a decorative element while the two different sizes allow it to adapt to the spaces. A floor lamp icon of beauty and functionality.

Hydrofloor Nano Linear

IN GROUND

The power of customization. In wall-washer or blade version to expand the possibilities of light beam, HYDROFLOOR NANO LINEAR has also a trimless variant that allows it to integrate perfectly with the surrounding environment. Three light sources, a unique and unrepeatable atmosphere.

Terra

IN GROUND

The name tells the use. TERRA, inground lighting product, has three different variants in which its soul doesn't change. Be inspired by its sinuous shapes, its versatility and by the possibility to adjust the light beam in a very simple way. Not just an outdoor lighting product but a real asset.

Nanowall

WALL MOUNTING

The new face of miniaturization. Starting from a diameter of 34mm, NANOWALL has been developed with the aim of bringing the power of the most performing lighting products in a tiny wall application. Highly profiled technology and circular or squared design create a true micro-jewel.

Wallbox

WALL MOUNTING

Extreme freedom of expression. WALLBOX is a wall lamp for outdoor installation with single or double emission and multiple possibilities of light beams that encloses in a minimal element all the ability of light to sculpt environments in infinite different ways, creating a bold symphony between lighting and space.

Nanostep

WALL RECESSED

Creating stages, one shape at once. Proposed in circular version for accent lighting and linear for expanding the light beam, NANOSTEP accompanies every movement. The various sizes make it easy to fit in multiple contexts while the trimless version ensures perfect continuity between wall and lighting. All, step by step.

NANO LINEAR DOWNLIGHT

DOWNLIGHT

New heights of miniaturized functionality.
An intense lighting from above that doesn't compromise aesthetics: in just 35mm of each light source, NANO LINEAR DOWNLIGHT can express the maximum of its potential. With wall-washer and blade light beam options, the outdoor environment can be uniquely customized.

CIELO

DOWNLIGHT

Downlight and versatility come together. Ceiling-recessed luminaire ready to surprise with its lighting from the top: CIELO comes in 3 sizes, 3 beams of light, 2 types of LED lighting and an innate ability to integrate itself in any outdoor architectural context. One product, millions of possibilities.
