

Set

Design by Xuclà.

A game of light, shadows and volumes, Set is a new concept of modular wall sconces that composes light as art onto the walls. During the day Set decorates the wall with a pattern of rectangular elements, but once illuminated it creates a surprising feature of lights, shadows and volumes.

Set wall sconce is a composition of rectangular pieces that generate and reflect light. One fixed component fitted with an LED casts its glow over the other adjustable volumes, each, in turn, emanating elegant rays of light and shadow and doubling as dramatic wall art. Multiple units install together create a wall art installation in an entryway, hall or feature area.

Create personalized Set compositions at vibia.com

A customised composition of rectangular pieces crafted of an aluminum body and fine borosilicate-glass diffuser, Set both generates and reflects light. It features one fixed component fitted with an LED that casts its light over the other adjustable volumes, each, in turn, emanating elegant rays of light and shadow upwards. The fixture produces an endless array of luminary effects depending on how it's positioned and doubles as dramatic wall art.

● 59 Mink (Pantone 407)

● 93 White (RAL 9003)

Main body: Aluminum.
