Michele De Lucchi, Giancarlo Fassina

IP20   EAC

## LUMINAIRE

- Watt: **9W**
- Voltage: **24V**
- Delivered lumens output: **461lm**
- CCT: **2700K**
- Efficiency: **63%**
- Efficacy: **51.17lm/W**
- CRI: **90**
- Dimmer Typology: **Microswitch Dimmer**

## Notes

Interchangeable support: table base, clamp, desk fixed support and twin support that allows two independent lamp units to be fitted. Possibility to mount LED source on E14 Socket

## DESCRIPTION

Using Led technology, the attention must be focused not only on energy consumption and light efficiency, but above all on the quality and quantity of the distribution of the light. In fact the advantage of the Led is that it emits 100% light flow into the direct hemisphere, eliminating dispersion and waste in other directions. This means that in order to obtain illuminance of 1250 lux on the work surface, with an incandescent light source a power of 100W is necessary, while with a Led source 10W is sufficient, with a 90% energy saving. Base and cantilevered arms in polished aluminium; diffuser in matt anodised aluminum; joints and supports in polished aluminium. System of spring balancing. The code is referred to the body lamp only
